EELD601 - Leak Detection Simplified

- Basic EVAP & general purpose leak detection
- Uses Nitrogen* for safer EVAP testing & shop air for general leaks
- Built with STAR EVAP Approved Diagnostic Smoke® Technology*
- Contains Patented UltraTraceUV® Dye solution - the only OEM approved dye*
- Automatic pressure control (not adjustable) prevents EVAP over-pressurization & damage while testing*
- Easy one-button pass/fail operation for finding .040"/.020" Leaks*

*Now required by virtually all OEMs

Standard EVAP-Approved Design
